

# THE BRITISH COLUMBIAN.

No. 36, Vol. 4.

NEW WESTMINSTER SATURDAY, JUNE 18, 1864.

Price 6d. or 12 cts.

This Journal is published every Wednesday and Saturday morning, and despatched by Mail and Express to all parts of these Colonies, Washington Territory, Oregon, California, the Eastern Provinces and Great Britain.

The utmost care is taken to procure authentic information from all the mining districts of British Columbia, and every exertion made to obtain reliable statistics respecting the country generally.

**The British Columbian.**  
NEW WESTMINSTER, SATURDAY, JUNE 18, 1864.  
WADDINGTON AND BUTE INLET.

"Poor Waddy." If any further proof were needed of the diseased state of the old gentleman's mind, so far as applied to the scheme of which he appears to be the unfortunate victim, we have it in his last attempt to explain the circumstances which led to the massacre of a number of his men near Bute Inlet. In a letter published in the *British Colonist* of Monday last, after the opening flourish, he starts with the broad assertion that, "I say at once that the real cause of the Bute Inlet massacre had nothing to do with the conduct of the victims themselves, who neither excited the assassins by ill usage or provoked them by injustice or improper conduct; and I am going to prove the contrary." Then, after asserting—what we flatly deny, and what the public are by no means aware of—"that the sole originators of the massacre were Chillicooten Indians from the upper country who had never before been down at Bute Inlet," he advances, as proof No. 1, a scene said to have happened between Lieutenant Palmer, R.E., and the Indians at Bentinck Arm in 1862. Unfortunately for Mr. Waddington what he describes really never did take place! It is a pure fabrication. We have neither time nor patience to deal with all his "proofs," but merely give the first as a specimen. But surely it betrays very great presumption, if not weakness, on the part of Mr. Waddington to suppose that the public will place more reliance in the *ex parte* statements of a man who is deeply and directly interested in the subject upon which he treats than in the result of a judicial investigation by an officer placed entirely above the influences of self interest. That investigation led to the conviction that the chief, if not the sole, cause of the massacre was the treatment the Indians experienced at the hands of those who became the victims of their vengeance. Mr. Waddington assigns as one cause of the massacre that the whites communicated a certain contagion to the Indians at Bella Coola, leaving it to be inferred that upon his workmen was visited the penalty due to others. Unfortunately for his object, however, it would not appear necessary to travel to Bella Coola for a provocation which he admits had to do with the massacre, as there was abundance of evidence to show that his own men had indulged largely in the same vice, and that that indulgence was followed with the usual consequences. But why has Mr. Waddington shifted his ground? A few weeks ago he assigned as the cause of the massacre the fact that the Chillicooten Indians were opposed to the construction of the road through their territory. Now he trumps up a list of groundless stories as the cause. But why multiply words in exposing the disingenuousness of the course adopted by the advocates of Bute Inlet. The following, which we copy from "*Good Words*," exactly describes their present position, and we respectfully recommend it to their careful perusal:—

"The Turkey is a silly bird; and the French call a person *Dindon* whom we, with less propriety, call a *goose*; that being very far from a silly bird. In America they are said to entrap the wild turkeys through their silliness. On a slight slope, just at the edge, a kind of pen is made of sticks, and covered over. At the lowest part an opening is left, sufficient to admit a turkey, and corn is strewn within and without the pen, to entice them in. When they have entered they might escape by simply descending to the entrance and walking out the way they walked in. But, instead of this, they vainly beat against the sides of the pen, till the trapper comes and despatches them.

Many featherless bipeds are like these turkeys. When it is plainly proved that you have formed a rash judgment or taken an unwise step, the right course manifestly is to confess this and retract, and retrace your steps. But most men are too much of turkeys to do this. Usually, when a man finds himself in a pen, and that there is no *thoroughfare*, rather than descend so far as to own a mistake, and walk out of the error the same way he had walked into it, he will resort to every kind of shuffle. He will insist on it that he was quite right all along, but that there has been a change in some of the people, or in the circumstances. Or perhaps he will flatly deny that he ever said so and so; or maintain that he was misunderstood. Anything rather than retract and acknowledge an error.

And yet a man who does this frankly will usually obtain great applause for his candor and good sense; even more perhaps than he would have had if he had avoided the error from the first. Yet even this will not tempt most men to take this ingenious and wise course. They are too much of turkeys."

And yet a man who does this frankly will usually obtain great applause for his candor and good sense; even more perhaps than he would have had if he had avoided the error from the first. Yet even this will not tempt most men to take this ingenious and wise course. They are too much of turkeys."

The British Columbian.  
NEW WESTMINSTER, SATURDAY, JUNE 18, 1864.  
POPULAR EDUCATION.

The public meeting held in the Town Hall on Thursday was by no means the least important of the season. New Westminster was not the first locality to give forth an expression of opinion in favor of a Colonial system of non-sectarian education, but when she did move in the matter she gave no uncertain sound. It was, perhaps, better, all things considered, that Yale should have led off, for we of the capital have been accused of arrogating too much to ourselves upon public questions, and; however groundless such insinuations may be we are rather pleased than otherwise that Yale should have stolen a march upon New Westminster in this important matter. The stand taken by our friends at the head of navigation does them the greatest credit and will tend materially to strengthen us here in placing the Colonial system of education upon the broad and only true basis of non-sectarianism. It will be noted in reading the report of the meeting, as published in another column, that full justice was done to the existing public school and its disinterested and unselfish promoters, while the miserable slanderers who had done their little best to malign and misrepresent the whole thing from beginning to end received a scathing rebuke. We wish the Editor of the Chronicle could have witnessed the writhings of his "Regular Correspondent" as he was obliged to succumb to the artillery charge of the gentleman he had so assiduously endeavored to stab in the dark. In his case that scripture has been strikingly verified which saith: "The way of transgressors is hard." So far as the public school of this city is concerned it is now placed upon a broader and more healthy basis than hitherto, although it is evident that, notwithstanding all the disadvantages with which it had to contend, it has been most useful and successful. The Committee appointed to prepare a school system have an arduous and important duty to perform; and should they succeed in originating a good system, which we have no doubt they will, they will indeed have discharged a noble and honorable task.

OFFICIAL MALFEASANCE.

We have more than once had occasion to allude to the palpable unfitness for office of a person of the name of Gompertz, who has been employed in the capacity of Postmaster and Bailiff or, as he styles himself, Deputy-Sheriff, at Williams Lake. A correspondent has just sent us an account of proceedings of the most disgraceful character connected with the sale of certain property belonging to a Mr. Eddy of the 134 mile post, which if true, ought to subject said Gompertz to severe punishment. We refrain from entering into the merits of the case for the present as we understand the matter will be investigated in a court of law. However far the account we have of this late outrage—for we cannot designate it by a milder term—may be questioned, enough is known to make it the duty of the Government either to dismiss the person alluded to or institute an immediate enquiry into his conduct.

INDUSTRIAL EXHIBITION!  
At San Francisco, California.  
TO BE OPENED ON THE 30th AUGUST, 1864.

THE EXECUTIVE COMMITTEE of the Mechanics' Institute of San Francisco, California, have ratified the action of A. O. Halliday, Esquire, in appointing W. H. SUTTON, Esquire, of Yale, and W. E. CORMACK and GEORGE DIETZ, Esquires, of New Westminster, British Columbia, to assist in securing contributions which will represent the industry and resources of British Columbia in the Industrial Exhibition—which will open on Union Square, in San Francisco, on the 30th of August, 1864.

With the view of inviting Capital to British Columbia for the development of the resources of the country, and in furtherance of the success of the Exhibition, gentlemen throughout the Colony will promote these objects by transmitting through DIETZ & NELSON'S and BARNARD'S EXPRESS, free of charge, Specimens which it may be in their power to obtain, to the address of either of the gentlemen appointed as above stated, who will forward them to the Exhibition in San Francisco, and which Specimens will be returned to the contributors, if desired, also free of expense. je15

COLONIAL SECRETARY'S OFFICE,  
New Westminster, June 2nd, 1864.

IN PURSUANCE OF CERTAIN RESOLUTIONS OF the Legislative Council, passed during the late session, the Governor has authorized the following Premiums to be offered with the view of developing the resources of, and stimulating industry throughout, the Colony:—

1. A Premium of FIVE HUNDRED POUNDS (£500) to be paid to any person or persons who shall be the first to show to the satisfaction of the Government that he or they have successfully worked by machinery a VEIN OF QUARTZ producing either Gold or Silver, within the Colony of British Columbia.

2. A Premium of FIVE HUNDRED POUNDS (£500) to be paid to any person or persons who shall be the first to show to the satisfaction of the Government that he or they have successfully worked any COAL MINE within the Colony of British Columbia, and have bona fide produced from such mine Two Hundred (200) tons of good Coal, and have shipped the same to any Port beyond the limits of the Colony.

3. A Premium of FIVE HUNDRED POUNDS (£500) to be paid to any person or persons who shall prove to the satisfaction of the Government that he or they have been the first to complete in a bona fide manner the building of a VESSEL, within the Colony of British Columbia, of not less than Five Hundred (500) tons burthen.

4. A Premium of FIVE HUNDRED POUNDS (£500) to any person or persons who shall prove to the satisfaction of the Government that he or they have been the first to find any new ALLUVIAL MINING DISTRICT sufficiently extensive to give remunerative labor to Five Hundred (500) men for a period of not less than Six (6) months.

The Governor in Council to be the sole judge as to whether any of the above Premiums are to be awarded. By His Excellency's command,  
ARTHUR N. BIRCH.

EXPRESS, FREIGHT

PASSENGER LINE

STAGES.

**Important to Business Men in Victoria, California, Portland, and Places on the Sound!**

This Journal is the only newspaper published in British Columbia, to read by every business man from New Westminster to the Rocky Mountains, and is unrivalled as an advertising medium for this Colony. J. DUNN, in Victoria, and T. H. BOWEN, in San Francisco, are our authorized Agents.

**The British Columbian.**

NEW WESTMINSTER, SATURDAY, JUNE 18, 1864.

**Later from Cariboo.**

Our advices from Cariboo are to the 9th inst., and although we have very little to add to what appeared in these columns a week ago, yet, to speak generally, the most encouraging intelligence continues to reach us, not from Williams Creek alone, but from the mines generally. It will be seen by a letter from our regular correspondent, who is perfectly reliable, that the nugget found on Lightning Creek to which we alluded, weighed 25 ounces instead of 13. This is, we believe, the largest piece of gold yet found in the country. We have just conversed with two intelligent gentlemen who left Williams Creek on the 9th, and they state that from the new ground daily being opened and the improved appliances in the shape of machinery and bed-rock drains, the yield of the mines must steadily and materially increase, while the rich hill diggings being discovered must give remunerative employment to a large mining population all the year round. Rich diggings on a new creek were reported, and a number left Williams Creek for the locality, which was not very clearly defined at latest advices. The companies were rapidly getting to work, and it is estimated that by the 1st prox. nearly every company on the creek would be in active operation. The provision market has undergone little or no change, flour continuing about 50 cts., and other articles in proportion, while pack trains were arriving with supplies. Mr. J. Orr, member for Cariboo East, was quite recovered. Dr. Black, member for Cariboo West, had arrived and was successfully treating Mr. Wm. Cunningham, who was very far gone with mountain fever. He was taken out to the Mouth of Quesnelle, where he arrived on the 8th and was recovering.

It will be seen by a letter from Rock Creek, which we publish to-day, that the mines in that region are by no means to be despised, while the Koutani mines are attracting very great attention. These last mines are situated partly in British, partly in American territory; and we think it would be well for our Government to dispatch a proper officer for the purpose of examining and reporting upon that locality, as it is likely to draw a very large population; and if we are correctly informed that both men and provisions can reach that place most readily by way of Hope, if reasonable facilities were afforded, it is important that the attention of the Executive should be early directed towards that object.

**The War.**

The news brought last night is really only one day later from before Richmond. Lee is reported sick in the capital and Ewell in command. Richmond papers of the 3rd say that on Friday 14 assaults were made by Grant on the right of the line held by Renshaw, Hokes and Breckinridge, and all were repulsed with great slaughter. They put our loss at from 10,000 to 20,000 with 1,000 prisoners, their men escaping almost unharmed. They acknowledge that we gained a partial success against Breckinridge, but say that the rebels subsequently recovered the ground.

Morgan was making a successful raid in Kentucky, capturing Marysville without resistance.

**RETURN OF MR. BREW AND PARTY.**—The little party dispatched to Bute Inlet under Mr. T. Brew last Sabbath se'nnight returned on Thursday evening, bringing with them the two Indians, "Squinteye" and "Little George." They waited at Nanaimo three days, expecting the war ship to call for the Indians according to arrangement, but as no word of either the ship or the cause of delay reached them they concluded to come on here. The Indians were sent back to Nanaimo yesterday in a small boat.

**THE "ALEXANDRA."**—This steamer returned from Yale yesterday morning, having made her first trip to the head of navigation on the Lower Fraser. There was considerable speculation as to whether she would succeed in navigating the more difficult portions of the river, but we are happy to say that all fears on that score have been dispelled, as the *Alexandra* has acquitted herself to the entire satisfaction of her owners. After taking in a cargo of lumber at Webster & Co.'s mill, she left for Victoria last evening with a number of passengers.

**DISGRACEFUL.**—Our fellow citizens were again shocked at seeing in yesterday's *Chronicle* a letter from its "regular correspondent" here, if possible more unblushingly slanderous than its predecessors. Of course the best reply to the tissue of falsehoods it contains is to be found in the report of a public meeting published elsewhere. If our contemporary expects to enjoy any considerable circulation here we would advise him to decline the further services of his regular correspondent. The act of that journal in continuing to permit an anonymous correspondent to slander one who writes over his proper name is neither right nor honorable.

**DEPARTURE OF THE "SUTLEY."**—H. M. Ship *Sutley*, we learn from the Victoria papers, left Esquimalt with the Bentinck expedition on Wednesday, having His Excellency Governor Seymour on board. The *Leviathan* was to proceed via Nanaimo to Bentinck, taking on the two Indians "Squint-eye" and "Little George."

**Letter from Cariboo.**

[FROM OUR REGULAR CORRESPONDENT.]

RICHFIELD, June 2nd, 1864.

DEAR SIR,—Quite an interesting suit came off before the Gold Commissioner on the 17th ult. between Matthew Carruthers, plaintiff, and Miss Roddy, defendant. The case was one of re-hearing, having been decided a few days previous in favor of Miss R. The plaintiff asked for a new trial on the ground that more evidence would be produced. It appears the plaintiff became a general partner of Richard Cameron's (who is brother-in-law of defendant) last summer, and further, that he was also desirous of becoming a partner of the defendant, who some time last fall signified her intention of going below, and Carruthers, fearful that such intention would be carried out, offered to transfer to him an interest in the Caledonia Company (of which he was owner) on the condition that she would remain on the creek during the winter. The transfer was made accordingly, but the confiding girl, not suspecting that such a generous individual would, under any circumstances, attempt to resume the gift, did not trouble herself to get it recorded; nor do I think he would for a moment have thought of doing so had not a brother of his arrived during the winter, who, thinking that Matthew was unfit to transact his own business, undertook to do it for him, and finding that this transfer had not been recorded, induced his brother to make another transfer to him, which was placed upon record immediately. The plea put in by plaintiff was, that although one thousand dollars was the consideration named in the transfer there had been nothing paid, and further, that a promise of marriage was in reality the consideration. To this charge the defendant pleaded "not guilty," and avowed that she did give value in labor to that amount. And the bachelor Judge, having (it is said) a warm sympathy with the weaker sex, recorded his judgment again in favor of the defendant.

With the exception of a few days the weather for the last three weeks has been very dry and warm, so much so that frequent fires have swept over the hills of Williams Creek, causing considerable loss by burning cabins, cordwood, saw-logs, drifting timber, lumber, &c. An extensive fire swept the east bank for about two miles yesterday. Capt. Hawson's house was burned, and it was with great difficulty that he saved his saw mill. The Ericsson Co. and Reed Co. also had a narrow escape from losing their shaft, houses and machinery.

The trail from Yanwinkle is tolerably well opened. The first train arrived here about a week ago, and quite a number have come in since. The cry of dull times which has been ringing in our ears for the last three months is becoming very feeble, and I think it will not be long before it will fall to return an echo.

The number of claims taking out pay is almost daily increasing. The Caledonia Co. divided \$1500 to the share on the 15th. The Never Sweat Co. are doing well: they divided \$1080 to the share on the 22nd. The Wake-up-Jake is still paying well. The Prince of Wales and Barker are taking out pay. The Welsh Co. are at work again. The Ericsson Co. got fairly to work a week ago, and for the first day washed up 84½ oz., second day 161½ oz., third day 218 oz., fourth day 428½ oz., fifth day 107 oz. This extraordinary yield caused considerable excitement, and adjoining claims rapidly advanced in price. A nugget of pure gold weighing 25 oz. was picked up in the Discovery Claim, on Lightning Creek, this week. A large amount of ground sluicing is being done on Lowhee, and from present indications a large yield may be expected from there this season.

Mr. Wm. Cunningham is very ill with mountain fever. His recovery is considered doubtful. Mr. Commeline, our Postmaster, arrived with the last Express, and has opened an office at Barkerville, and quite a number are already availing themselves of benefits resulting therefrom in the way of cheap postage. This one act of the Legislative Council is a great boon to the Colony at large, and more particularly to the inhabitants of Cariboo. I wish I could say as much in favor of the clause in the Goldfields Act relating to the registration of transfers, levying a rate of one per cent. on the amount named in the transfer. The miners in general look upon it as an extortion almost without a parallel.

The Richfield Co. have got their large pump at work: it is answering their purpose admirably, lowering the water in their shaft about a foot per minute.

**Letter from Rock Creek.**

To the Editor of the British Columbian.

DEAR SIR,—I have contemplated for some time past to drop you a few lines from this place, thinking perhaps it would be of some interest to your readers to know how matters "were" in this vicinity. The miners on this creek are at present doing very well, making on an average \$10 per day, with a prospect of doing much better as soon as the water falls sufficiently to enable them to operate successfully in the bed of the stream. There are at present about 60 Chinamen working on Boundary Creek, 12 miles distant from this place. They are, as far as I am able to learn, making from \$4 to \$6 per day to the land. This place will undoubtedly be filled up with Chinamen this summer.

I arrived from Colville a few days since. During my short sojourn at that place I heard nothing spoken of but Koutani. Everybody talked, dreamed and spoke of nothing but Koutani. There were a thousand and one rumors in regard to that country of untold wealth, &c., &c., but I could trace none of these rumors to any authentic source. Nearly every one that could get away from Colville has gone to the Koutani, and those that remain are only waiting to hear from their friends who have gone before them before packing up their effects to make a start. Hundreds have left Walla Walla and the Columbia River for that country. In fact the Koutani is all the rage over this way, and I find that many of the old stagers of Fraser River and Cariboo have been seized with the Koutani fever, as I have noticed many en route for those new mines who passed this place.

The people of Colville have constructed a new trail from this place to the Koutani, shortening the distance some 200 miles. Nearly all of the new road passes through British territory. The

people of Colville certainly deserve great credit for their enterprise in opening a trail through a foreign territory, without any assistance from the Government. Excuse me for my digression, but while I am on the subject of trails and roads I have a few suggestions to make which materially interest the citizens of your thriving town, and more particularly the inhabitants of Fort Hope. It is a matter of very great importance to persons who contemplate visiting the Koutani mines to ascertain the shortest, best and most feasible route to that country. To such persons (provided they start from any point on the Sound, W. T. Victoria, New Westminster, Douglas or Yale) I would say, go to Hope, B. C., thence via Similkameen, Soogoo Lake and Rock Creek to Colville; thence by the new trail from Colville to the Koutani. The trail, with the exception of that portion which lies between Hope and Similkameen, is a good one, with plenty of grass for animals and with an abundance of good water and wood. I understand the Legislature of British Columbia have appropriated the sum of \$5000 for the improvement of the Hope road. If such is the fact the road can be—if the money is judiciously expended—put in good order. It is to be hoped however that the present incumbent will look well after the contractors who repair the road, and see that they do the work according to specification. The contracts for repairs on the Hope trail for the past two years were served out to Government "pets," and the consequence was that the contractors ran over the trail at railroad speed, making little or no improvement. There has been expended by the Government for 1863 and 1864 fourteen hundred dollars for repairs on the trail. The contractors did three days labor in each year on the trail for the above amount. In running over a distance of 75 miles it could not be expected that they would be able to make any great improvement on the road in three days time. Notwithstanding this fact the road was accepted by the late Governor's officials, and his "pets" pocketed the cash.

Yours, &c.,

AN OLD FIFTY-EIGHTER.

Rock Creek, B. C., May 27th, 1864.

**Public School Meeting.**

Pursuant to a requisition signed by a number of rate-payers, the President of the Municipal Council convened a public meeting in the Town Hall on Thursday evening. The attendance was large and highly respectable. R. Dickinson, Esq., occupied the chair and Mr. V. Hall acted as Secretary. After the object of the meeting had been explained by the Chairman, the Rev. Mr. Jamieson was called upon by a vote of the meeting to explain the history and present position of the Common School of this city, which he did in a very lucid and satisfactory manner, showing that the school was established and conducted upon non-sectarian principles, but that the arrangements having only been temporary, for one year, and that year having expired in April last, the institution was now in a state of disorganization so far as the Committee of Management was concerned, although the teacher continued zealously and faithfully to discharge his duty. After Mr. Jamieson had concluded his account of the school, which was listened to with marked attention, the following resolution was moved by Mr. John Murray, seconded by Rev. A. Browning, and carried unanimously: *Resolved*, "That it is the decided opinion of this meeting that the only system calculated to diffuse successfully the blessings of education in this Colony is that known by the name of non-sectarian or non-denominational; and that none other should be supported in whole or in part by public money." We almost regretted to see a resolution of such vital importance passed without eliciting any expression of opinion, but everyone appeared to have their minds so thoroughly made up upon the subject that any remark was deemed unnecessary.

The following was moved by Rev. R. Jamieson, seconded by Mr. W. Clarkson, and carried unanimously: *Resolved*, "That whereas a temporary arrangement having been made by parents having children of school-age in the Spring of 1863 for the conducting of a non-sectarian school in this city, and whereas the provision thus made for its management, which was for one year only, having expired,

1st, Be it therefore *Resolved*, "That the citizens of New Westminster approve of this school as a public or common non-sectarian school, worthy of public confidence and entitled to the continued and liberal support of the Government." 2nd, "That Messrs. Thomas McMicking, W. J. Armstrong and Dr. N. R. Oliver be nominated as a Committee of Management for the year commencing 1st April, and recommended to His Excellency the Governor for his sanction and approval."

A code of Rules and Regulations for the management of the school was submitted by Mr. Clarkson and adopted. As this concluded the arrangements for the temporary management of public education in this city, Capt. Cooper said that before proceeding to the consideration of the subject of education in a more abstract and general form he thought there was one resolution it behooved the meeting to pass, and that was an expression of entire confidence in the Teacher of the Common School of this city, Mr. James McIlveen, for the ability and zeal with which he had discharged his duty under difficult and discouraging circumstances. Mr. Clarkson seconded the resolution with a few happy remarks, stating that one, two, and sometimes three, of his family had attended the school, and the progress they had made would compare favorably with that of his elder children in Canada. The resolution was carried unanimously and properly acknowledged by Mr. McIlveen, who took that opportunity of mentioning that a public examination of the school would take place on that day two weeks, when he hoped to see the public manifest their interest in education by a large attendance.

Moved by Capt. Cooper, seconded by Mr. John Robson, and carried unanimously: *Resolved*, "That a Committee be appointed by this meeting to draw up a system of public education for adoption at an adjourned public meeting hereafter to be held on the 18th July next, such system to

be recommended to His Excellency the Governor in Council as the best adapted to the requirements of the Colony." The following gentlemen were named as the Committee:—Messrs. V. Hall, T. McMicking, J. McIlveen, W. Grieco and W. E. Cormack.

The meeting was then adjourned till the 18th July next.

**THE NEW POSTAL SYSTEM** is hailed as a great boon by the people of Cariboo. The mail which arrived yesterday contained 300 letters instead of 10 to 12, as was the case under the old system. Thus early we have proof of what has been frequently stated in these columns, viz., that a low rate of postage will produce more revenue than a high rate. Three hundred letters at 12½ cts. will produce \$37 50, whereas 10 letters at the old rate of a dollar would produce but ten dollars! If such is the first fruits what will the end be?

**ECCLIASTICAL.**—We are requested to state that during the absence of the Rev. A. Browning, who leaves to-day for Cariboo, his place will be supplied by the Rev. E. Robson, of Yale, who will conduct the usual services in the Mary street Wesleyan Church, commencing to-morrow.

**BACKING DOWN.**—Our contemporary of the *Chronicle*, finding that he has "put his foot in it," tries to back down from the position he took respecting the *Tribune* difficulty, and even has the temerity to deny that he exulted over the affair. We need only allude to his issue of the 13th inst., in which the matter is alluded to no fewer than five times, and the 14th, in which it is referred to nearly as often. We are glad to find him of a better mind now.

**A PUBLIC CALAMITY.**—The "regular correspondent" of the *Chronicle* leaves for Cariboo to-day! O what will become of us without him? The only consolation we can offer our readers is that he may favour the *Chronicle* with an occasional "crack of doom" from the canons on the Upper Fraser. The value of anything he may write from the interior will be incalculably increased from the fact that he has in an amazingly brief period earned such a high character for veracity and honor and dignity. We congratulate our contemporary on possessing such a "regular."

**ARRIVAL OF DIETZ & NELSON'S EXPRESS.**—The *Reliance* returned from Yale yesterday, bringing Dietz & Nelson's Express, with \$5000 in treasure.

**QUICK TIME.**—Barbador's Express left Williams Creek on the 9th and arrived at Yale on the 15th instant.

**THE "TRIBUNE."**—We understand this ship will leave for Esquimalt to-day.

**HINDU LIBERality.**—The H. n. Rustomjee Jamsetjee Jeejeebhoy of Bombay, offers 150,000 rupees (\$75,000) to enable five native youths, to be selected from the three Presidencies, to proceed to England to qualify themselves to practice as barristers in India, on a footing of equality as regards legal training with European members of the bar.

**HOLLOWAY'S OINTMENT AND PILLS.**—Sores, Wounds and Ulcers—Every variety of sore, ulcer, eruption, boil, and carbuncle, is safely stopped in its destructive course by the timely application of this healing Ointment. It arrests unhealthy, and substitutes healthy action, thus curing the inflamed, irritable, and spreading diseases affecting the skin. Holloway's Ointment has gained an imperishable fame for its facility in healing old inflammatory sores about the shins and ankles, and for bad legs and old wounds it cannot be equalled; nor is it less efficacious in gathered breasts and abscesses. When the complaint has been of long continuance, Holloway's Pills will expedite recovery, if taken in those doses which act as alternatives on the stomach, and tonics on the constitution.

**New Advertisements.****REAL ESTATE AGENCY!**

THE SUBSCRIBER, BEING THE PIONEER OF this city, is well acquainted with every town and suburban lot, and most of the rural lots at present surveyed in this District. He has made it a part of his business during the past five years to examine Lots, and has had considerable experience in purchasing and selling Real Estate, and is well posted in regard to the actual value of Land.

Parties who are desirous of purchasing or selling

**TOWN, SUBURBAN OR RURAL LANDS**

will find it to their advantage to place the same in his hands.

All business in the GENERAL AGENCY line attended to. Charges Moderate.

NEW WESTMINSTER, SATURDAY, JUNE 18, 1864.

### Poetry.

A pair of scales before him, a rich man sat and weighed  
A piece of gold—a widow's all, and unto her he said:  
"Your coin is not the proper weight, so take it back  
again.  
Or sell it me for half its worth; it lacks a single grain."  
With fearful eyes the widow said, "O, weigh it, sir,  
once more;  
I pray you be not so exact, nor drive me from my door."  
"Why are you so afraid, it's under weight; your tears are no  
avail."  
The second time he tries it, it just bears down the scale.  
But little guessed the rich man, who held his gold so  
dear,  
That the extra weight that bore it down had been the  
widow's tear.

RELIGIOUS DENOMINATIONS IN IRELAND.—Among  
the statistics just published in reference to the  
census of Ireland for 1861 are some relating to  
the religious professions, education, and occupa-  
tions of the people. When the census was taken  
there were 693,357 persons calling themselves  
of the Established Church, 4,505,265 Roman  
Catholics, 523,291 Presbyterians, 45,399 Metho-  
dists, 4,532 Independents, 4,231 Baptists, 3,695  
Quakers, 393 Jews, 15,666 professing other be-  
liefs. As there are 124,227 more women than  
men in Ireland, so there are more women than  
men professing each of these beliefs, but with  
this exception that there are 2,141 men belong-  
ing to the Baptists, and only 2,096 women.  
There are 308 more women than men belonging  
to the Independents. Among the 15,666 of all  
other persuasions there are 112 calling them-  
selves "Christians," 20 men and 1 woman "Free-  
thinkers," 10 "Old Lights," 18 "New Lights,"  
8 "Swedenborgians," 8 "Sinners saved by  
Grace," 4 "Socialists," (men), 43 men and 24  
women Mormons, 55 "Christian Israelites," 2  
"Seekers," 2 "Materialists," 2 "Rationalists,"  
1 "Primitive Seceder," 1 "Arminian Presbyter-  
ian," 1 "Self-opinion on the Church of God," 1  
"Saint of no sect," 1 "Orthodox," 1 "Theist,"  
1 "Positivist," 2 "No particular persuasion,"  
2 "Undecided," 2 "Doubtful," 1 "Unbeliever,"  
1 "Atheist," 1 "Hindu," 72 "No religion,"  
and 1 "Walkerite." There are 4,412 land  
proprietors in Ireland, of whom 4,044 belong to the  
Church of England, and 3,516 to the Church of  
Rome. There are noblemen, gentlemen, and  
their ladies 4,979; of these 3,368 profess the  
religion of the Established Church, and 1,313  
Roman Catholicism. There are only 9 noble  
lords and ladies Catholics and 1 peeress a Pres-  
byterian. Of beggars there are 13,030—10,444  
being women; 469 of these belong to the Estab-  
lished Church, and 12,240 to the Church of Rome.  
There are 5 men in Ireland, Roman Catholics,  
who call themselves Quakers.

A GREAT TRAVELER.—They have out in At-  
lanta, a hotel keeper named Thompson, who is  
considered rather shrewd at a joke, but he meets  
his match sometimes, as the following will show:

A traveller called very late for his breakfast,  
and the meal was hurriedly prepared. Thompson,  
feeling the food was not quite up to the  
mark, made all sorts of apologies around the eat-  
er, who worked away in silence, never raised his  
head beyond the affirmative influence of his fork,  
or by any act even acknowledged the presence  
of his host. This sulky demeanor rather vexed  
the landlord, who changing the range of his bat-  
tery, stuck his thumbs in his armpits, and said:  
"Now, mister, confound me if I hain't made  
all the apologies necessary, and more too, con-  
sidering the breakfast, and who gets it; and I  
tell you I have seen dirtier, worse cooked,  
and worse looking, and a deal of sight smaller break-  
fast than this is a great many times."

The weary, hungry and sulky man laid down  
his tools, swallowed the bite in transitu, and  
modestly looking up at the fuming landlord, ex-  
claimed:

"Is what you say true?"  
"Yes, sir."  
"Well, then, I'll be blamed if you hain't out-  
travelled me."

THE FRENCH PRESS AND PROTESTANTISM.—At-  
tention is called to the Protestants and Protes-  
tant countries in a remarkable degree by pub-  
lic writers in France. In the *Debut* we find  
one holding up Protestantism as "forming, to-  
gether with science, the two mainstays, and  
the twofold heart of European life." The main  
nature of Protestantism is held up to view in contrast  
with the effeminate influence of Romish books  
and devotions; and the wonderful difference be-  
tween the fictitious literature of the two countries,  
England and France, is brought out in strong  
colours,—the former essentially moral, and the  
latter essentially artistic. Again the *Moniteur*,  
in publishing an article on the Franklin Society  
for the propagating and lending libraries all  
over France, takes its example from Protestant  
nations, Protestant communities in France,  
Protestant schoolmasters, and praises the little  
paper *La Lettre*, edited by a Protestant pastor.

WHAT KIRSTY SAW.—An English tourist visit-  
ed Arran, and being a keen disciple of Isaac  
Walton, was arranging to have a good day's  
sport. Being told that the eel or horse-fly  
would suit his purpose admirably for tackle, he  
addressed himself to Kirsty, the Highland ser-  
vant girl. "I say, my girl, can you get me  
some horseflies?" Kirsty looked stupid, and he  
repeated his question. Finding that she did  
not yet comprehend him, he exclaimed, "Why,  
girl, did you never see a horse-fly?" "Naa, sir,"  
said the simple girl, "but aw wauise saw a coo  
jump ower a precipice."

Manager.

BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINT-  
MENT, TO HIS ROYAL HIGHNESS THE  
PRINCE OF WALES.

Opinions of the London Press upon Benson's Great  
Clock and Watches in the Exhibition, 1862.

"As a sample  
of English clock-  
work on a large  
scale, the works  
of this are prob-  
ably the finest  
finished that have  
ever been seen in  
this country. No  
Chronometer could  
be fitted with more  
perfect  
or carefully ad-  
justed mechanism."  
—*Times*, June 11, 1862.  
"A triumph of  
ingenuity." —*Tele-  
graph*, March 31,  
1862.  
"A more splen-  
did and exquisi-  
tely-finished piece  
of mechanism we  
have never seen." —*Standard*, June 17, 1862.

"Some of them are of great beauty; and if the En-  
glish watch-trade only follow up with the same spirit  
and success this first attempt to compete with foreign-  
ers in decorative watches, there seems to be no reason  
why we should not get the trade entirely into our own  
hands." —*Times*, June 23, 1862.

"Ranged around the base of the clock were the  
Watches which Mr. Benson exhibited, and which have  
been universally admired for the beauty and elegance  
of the designs engraved upon them. The movements  
are of the finest quality which the art of horology is at  
present capable of producing. The clock and watches  
were objects of great attraction, and well repaid the  
trouble of an inspection." —*Illustrated London News*,  
November 8, 1862.

Watches, adapted for every class, climate and  
country, wholesale and retail. Chronometer, Duplex,  
Lever, Horizontal, Vertical, Repeating, Centre Seconds,  
Keyless, Astronomical, Reversible and Chronograph,

THE SUFFERER'S BEST FRIEND.

HOLLOWAY'S PILLS.

All Disorders affecting the Liver,  
Stomach and Bowels.

These Pills can be confidently recommended as the  
most simple and certain remedy for indigestion, flatu-  
lency, acidity, heartburn, colic, constipation, and all the  
many maladies resulting from disordered stomach or  
bowels. In all diseases it is of primary importance to  
set the stomach right. These Pills are purifiers, altera-  
tives, and strengtheners of the stomach. They may be  
taken under any circumstances. Though powerfully  
tonic, and satisfactorily aperient, they are mild in their  
operation, and beneficial to the whole system.

Weakness and Debility, Nervous  
Irritability.

The wholesale effect exercised by these admirable  
Pills over the blood and fluids generally is like a charm  
in dispelling low spirits, and restoring cheerfulness.  
Their general aperient qualities well fit them for a do-  
mestic medicine, particularly for females of all ages and  
periods of life. They never betray any disagreeable  
irritating qualities; they quickly eject all impurities  
from the system, and regulate every function of the body,  
giving wonderful tone and energy to weak and debili-  
tated persons, while they brace and strengthen the ner-  
vous system in a most extraordinary manner.

To Regain Health, Strength and  
Vigour.

Whenever persons find themselves in that state termed  
a "little out of health," and there are so many causes  
at work to shorten life, it is necessary that Hollow-  
ay's Pills, the finest purifier of the blood ever known,  
should be at once taken, as they not only rid both solids  
and fluids of all morbid matters; but regulate all disor-  
dered actions, and strengthen the frame in a most ex-  
traordinary manner.

Old Coughs, Colds and Asthmatical  
Affections.

These Pills, assisted in their action by rubbing Hol-  
loway's Ointment very effectively twice a day upon the  
throat and chest, and keeping these parts covered with  
the preparation, will be found the most effectual reme-  
dy for asthma, coughs, colds, bronchitis, and influenza.  
These remedies tranquilize the hurried breathing,  
soothe the irritated air-tubes, and assist in dislodging  
the phlegm which stops up the air-passages. This  
treatment has proved wonderfully efficient in not only  
curing old settled colds, but asthma of many years  
standing, and even when patients who were in so bad a  
state as not able to lie down on their beds lest they be  
choked with phlegm.

Derangement and Distention of the  
Bowels, Flatulency, Diarrhoea  
and Dysentery.

Any symptoms of the above complaints should be im-  
mediately met by appropriate doses of these Pills, ac-  
cording to the printed directions: delay may be fol-  
lowed by disastrous consequences. These Pills are a  
certain remedy for all the ailments of the alimentary  
canal, they secure the thorough digestion of the food,  
and act most kindly on the stomach, liver, bowels and  
kidneys. As a household medicine they are unrivalled,  
and should always be at hand.

Very Important, of Costiveness  
Beware.

Rarely but little notice is taken of costiveness, yet,  
at certain periods, it is a sure sign that danger is near.  
All who are seized with apoplexy and paralysis, have  
previously suffered from costiveness. In the former  
case the blood flies to the head, a small vein is ruptured  
on the brain, and we know the rest. Let wives coun-  
sel their husbands, and husbands their wives, never to  
go to bed a second night, if the bowels have not been  
properly moved during the day, particularly if they feel  
heavy and drowsy. A few gentle doses of these fine  
Pills will regulate the circulation of the blood, and all  
dangerous symptoms.

Holloway's Pills are the best remedy known in the world  
for the following diseases:—

Ague Asthma Bilious Complaints Blotches on the Skin Bowel Complaints Colic Constipation of the Bowels Consumption Debility Dropsy Dysentery Erysipelas	Female Irreg- ularities Fever of all kinds Fits Gout Head-ache Indigestion Inflammation Jaundice Liver Com- plaints Lumbago Piles Rheumatism	Retention of Urine Scrofula, or King's Evil Sore Throat Stiff Joints Stones and Gravel Secondary Sym- ptoms Tic Douloureux Tumours Ulcers Venereal Affections Worms of all kinds Weakness, from whatever cause, &c., &c.

ALL CURES MADE EASY!!

HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad  
Breasts and Old Wounds.

No description of wound, sore, or ulcer can render the  
healing properties of this excellent Ointment. The  
worst cases readily assume a healthy appearance when  
ever this medicament is applied; sound flesh spring  
up from the bottom of the wound, inflammation of the  
surrounding skin is arrested, and a complete and per-  
manent cure quickly follows the use of the Ointment.

Piles, Fistulas and Internal Inflam-  
mation.

These distressing and weakening diseases may with  
certainty be cured by the sufferers themselves, if they  
will use Holloway's Ointment, and closely attend to the  
printed instructions. It should be well rubbed upon  
the neighbouring parts, when all obnoxious matter will  
be removed. A poultice of bread and water may some-  
times be applied at bed time with advantage; and most  
scrupulous cleanliness must be observed. If those who  
read this paragraph will bring it under the notice of  
such of their acquaintances whom it may concern, they  
will render a service that will never be forgotten, as a  
cure is certain.

Rheumatism, Gout & Neuralgia.

Nothing has the power of reducing inflammation and  
subduing pain in these complaints in the same degree  
as Holloway's cooling Ointment and purifying Pills.  
When used simultaneously they drive all inflammation  
and depravities from the system, subdue the fever, and  
all enlargement of the joints, and leave the sinews and  
muscles lax and uncontracted. A cure may always be  
effected, even under the worst circumstances, if the use  
of these medicines be persevered in.

Eruptions, Scald Head, Ringworm &  
other Skin Diseases.

After fomentation with warm water, utmost relief and  
speediest cure can be readily obtained in all complaints  
affecting the skin and joints, by the simultaneous use of  
the Ointment and Pills. But it must be remembered  
that nearly all skin diseases indicate the depravity of  
the blood and derangement of the liver and stomach;  
consequently, in many cases, time is required to purify  
the blood, which will be effected by a judicious use of  
the Pills. The general health will be readily improved,  
although the eruption may be driven out more freely  
than before, and which should not be promoted; per-  
severance is necessary.

Sore Throats, Diphtheria, Quinsy,  
Mumps & all other Derangements  
of the Throat.

On the appearance of any of these maladies the Oint-  
ment should be well rubbed at least three times a day  
upon the neck and upper part of the chest, so as to  
penetrate to the glands, as salt is forced into meat:  
this course will at once remove inflammation and ulcera-  
tion. The worst cases will yield to this treatment by  
following the printed directions.

Scrofula or King's Evil and Swelling  
of the Glands.

This class of cases may be cured by Holloway's puri-  
fying Pills and Ointment, as their double action of puri-  
fying the blood and strengthening the system renders  
them more suitable than any other remedy for all com-  
plaints of a scrofulous nature. As the blood is impure  
the liver, stomach and bowels, being much deranged,  
require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following  
cases:—

Bad Legs. Bad Breasts. Burns. Bunions. Bite of Mosquitoes and Sand-Flies. Coco-bay. Chieftain-foot. Corns (soft). Cancers. Chilblains.	Chapped Hands. Contracted and Stiff Joints. Elephantiasis. Fistulas. Gout. Glandular Swel- lings. Lumbago. Piles. Rheumatism.	Scalds. Sore Nipples. Sore-throats. Skin-diseases. Scoury. Sore-heads. Ulcers. Wounds. Yaws.
